Personal Statement

I am a passionate and dedicated Software Engineering student at Addis Ababa Science and Technology University. I enjoy solving problems through programming and continuously seek to expand my skills and understanding of technology. My goal is to become a skilled software engineer who can use innovation to create real-world impact. Through A2SV, I hope to strengthen my algorithmic thinking, improve collaboration, and grow as a problem solver ready for global opportunities.

Career Objective

Motivated second-year Software Engineering student at Addis Ababa Science and Technology University with strong interest in programming and problem-solving. Seeking to join the A2SV program to strengthen algorithmic thinking, teamwork, and software development skills through hands-on learning and collaboration.

Education

- Addis Ababa Science and Technology University
- Bachelor of Science in Software Engineering
- Expected Graduation: 2028
- Key Courses: Programming Fundamentals, Discrete Mathematics, probability and statics, Introduction to software engineering, history, and Global trend.

Certifications

Fundamentals of Programming and Data Analysis – Udacity

Learned core programming concepts, data handling, and algorithmic problem-solving.

Technical Skills

Programming Languages: HTML, C++

Tools & Technologies: Visual Studio Code

Soft Skills: Communication, teamwork, adaptability, and self-learning

Projects and Activities

• Student Management System (C++): Designed a console-based system to manage student records efficiently.

• Personal Portfolio Website: Developed a simple website using HTML and CSS to showcase projects.

• Active Member, Software Engineering Club: Collaborated with peers on small projects and coding discussions.

Achievements & Interests

• Completed Udacity certification with distinction.

• Passionate about algorithmic challenges and continuous learning.

• Interested in joining A2SV to grow as a problem solver and contribute to impactful software projects.
